# STV

NAME: BINSE, Christopher  
CRN: 43517  
DOB: 7/10/1968

**Acute Mental Health/Psychiatric Assessment Form**  
To be used for the purpose of those prisoners requiring acute/at risk assessment

DATE 11/03/11 Call Received: \_\_\_\_\_ Time Risk Behaviour Identified: 16:45

At Risk Status on Referral	Psychiatric Outpatient	<input type="checkbox"/>
	Admission/Reception	<input type="checkbox"/>
	Unit	<input type="checkbox"/>
	St. John's/St. Thomas	<input type="checkbox"/>
Referral Person	Other	<input type="checkbox"/>

Reason for Referral:

Head injury (minor laceration) when Christopher charged at his wall in a moment of frustration about his situation.

DEPT OF JUSTICE VIC.  
RELEASED UNDER FOI

Problems Identified by Patient:

Frustrated at prolonged period in 'management', he equates with solitary confinement, when he wants to be in a pre-release program to prepare him for release which may be in 6/52 time. Charging at wall an expression of frustration, unable to stop to prevent injury.

Psychiatric History: Current 'P' Status: P1  P2  P3  PA  Nil

Denies psych history tho admits cocaine use - just general life issues. Seen in RPN of 2/3/11 where he expressed belief he was being set up to fail as happened last time: released straight from Charlotte management to freedom.  
Denies SASH issues but reception assessment on patients own report, lists hunger strike + ingestion of foreign objects "to prove a point"
