Re. – County Court Directions hearing 5th December 2018. C1-11-00426.

These are serious grave allegations of corruption. Which are easily proven by facts.

Madame,

As the figurehead of Correction's Victoria, you have the role in overseeing that "all your staff", more so executive levels are suitable in holding such significant positions.

That they are "beyond", ANY criminal and professional miss-conduct of public office.

Those which have been proven and established to have abused public office by their deliberate and calculated calumny acts, have no place in such positions currently held.

Leadership needs to be free of rancid conduct poisoning and "polluting hierarchy".

**To embrace & ignore all those, who are far from honest, truthful and have no integrity, is a damning indictment on rest of Prison administration, and transfers onto YOU!
It is YOU who then becomes accountable for their actions, when telegraphed in advance**

If I can prove and illustrate and demonstrate "significant acts of deliberate wilful criminal acts" and conduct perpetuated by the Major Offender top executives, will you act appropriately to remove them from their current positions, or will you allow them to keep their posts and give them a Chinese burn and a pass for such heinous criminality?

In the private sector, any staff found to have engaged in "deliberate acts of fraud, deceit dishonesty and criminal acts", would be sacked and their services terminated period!

Or are you to "shield and cover up this obscene criminality I ask?!"

I look forward to your views in addressing this significant matter in question. Thank you.

- P.S. The 753 document relating to **C1-11-00426**, was done in a rush to meet the September 19th 2018 deadline, I have since had the chance and opportunity to review and amend many technical errors and update, even further compounding an already compelling document. It truly will bring down the Major Offender Unit top executive leadership now dated **1st January 2019**, it "is coming." So, I give you the heads up!

Sincerely

Christopher. Dean. Pecotic/Binse.

Re. – County Court Directions hearing 23rd August 2018. C1-11-00426.

These are serious grave allegations of corruption. Which are easily proven by facts.

When “I say something” “I follow through with what I say” “by what I do”, period!

I am in the process of lodging many separate complaints with various depts.

And in overseeing bodies to thoroughly investigate further, in exposing the rancid conduct of those in public office, with a view of those found proven charged as a result for criminal acts.

This matter will not go away, nor disappear either for that matter, I will guarantee I will generate maximum exposure to the level of corruption and dysfunctional practices contrary to proper administration of Commissioners Policy’s in its operating procedures, at its highest levels, committed by major Offender Unit top executive body.

You as the figure head of this group and portfolio should be made aware of the true extent of what is taking place behind closed doors, cell doors that is, pardon the pun.

Don’t say I never warned you, nor gave you the thumbs up in advance to avert the media mess which is to attach itself to the proven chain of improper, unprofessional actions of the upper echelon of Major Offender Unit personal, best you begin to seriously re-evaluate their tenors and positions in integrity and character and professional performance levels met.

Not overlooking overseeing that proper policy and guidelines are met and followed through.

When the shit hits the proverbial fan, the buck stops with you, don’t say you weren’t apprised

I am circumspect in all my agendas and projects, documenting and records of everything kept

You included, given you failed to act pro-active & appropriately in rooting out this corruption

So that you know, that is where it is headed, **along with a dossier of “all those aware of it”**.

Either covering up the complaint (or) treating with the utmost contempt and ignorance of.

Ignorance of, amounts to complicity, as it is allowed to continue and fester and not acted on!

For the record you should get a copy of plaintiff's 330 page submission identified as (753) document, dated 2nd September 2018. Which Government Solicitor **Ms Debra Coombs has**.

I have proven and demonstrated each and every key element I need to, this current live action against state of Victoria will rivet the entire community and find its way to social media too.

It will blow the careers of many out of the water once I am done with my cross examinations.

When this matter is concluded, and case has already been established and proven in civil law.

I will undertake further civil proceedings, not against state of Victoria, **but “private action”**.

Against the **Defendants Mr Brendan Mooney & Mr Rod Wise**, it will costs them personally, not the state of Victoria's coffers, it will be their wealth and assets which will be lost and become mine, for my victims of crime to enjoy.

Thing is:

I have already proven what I need to in the current case against the state in **C1-11-00426**.

The rest is a walk in the park, a **“downhill run!”**

Enclosed is:

Letter to Rod Wise (1x) page dated 28th November 2018.

Letter to Chief County Court Judge (2x) pages dated 2nd December 2018.

Affidavit of Christopher Dean Pecotic Binse (13x) pages dated

I look forward to your reply in addressing this significant matter in question. Thank you.

Sincerely
Christopher. Dean. Pecotic/Binse.

To Ms Angela Langdon,

Re- Petition of Mercy in case of. *Binse Vs The Queen VSCA 145. (22 June 2016). Decision.*

And my updated mail & petition of Mercy Application (3) sent to you 2nd Sept 2018.

I wish to inform you, **I will have your dept. thoroughly investigated, given this will become a public interest case, when potential criminal behaviour appears to have taken place by those charged with processing my Petition of Mercy application.**

Imagine that, this state's highest law office ultimately charged with perverting the course of natural Justice, obstruction of justice, conspiracy to pervert the course of natural Justice and miss-conduct of public office where a preponderance of evidence has been presented on the legal issues raised in applicant's applications.

Let, I. B.A.C do their job investigating a wealth of facts, your offices are concealing!

This will become well and truly messy entering the state election; how far off are we away from my Petition of Mercy being finalised please, I would appreciate some form of time frame, thank you.

To Ms Angela Langdon,

Re- Petition of Mercy in case of. *Binse Vs The Queen VSCA 145. (22 June 2016). Decision.*

I apologise for the brash confronting contents of previous mail dated 17th Oct 2018.

I am under enormous stress anxiety and untold pressures, becoming frustrated frantic and manic as a result, it is a gruelling experience to be compelled with uncertainties of your life and future being drawn out for a number of years since time of sentencing.

It has taken a toll on me in many ways; my mental strength has been depleted totally.

I am full of trepidation and mistrust due to sheer volume of misconduct experienced.

And have come to expect, being sold out (or) treated with disdain from powers to be.

Thank you for your time, patience and co-operation. I look forward to your reply.

Sincerely
