

Right now

13

Someone just died, someone
just got married, someone's shitting
pissing, crying, sighing, wondering why.
Someone's playing chess whilst balancing
two bottles of beer in their throat.
Like three masters, someone just
hung themselves, hid, hurt
Someone. Right now, leprechauns
are dancing on a grave.
Right now 7 billion people
are breathing fr the 9 gates:
nostrils, ears, ass, genitals, mouth, eyes.
Right now someone just got
cancer, someone's shooting up ice
and someone is lonely in futpants.
Somewhere a can is resting
whilst seven blackbirds swoop.
So many insects chittering
& no things but in things.
Someone just escaped from jail,
too many to count were just
arrested. Someone just got murdered.
Someone's thinking about life
whilst a generation of hopeless lovers
perks off. Someone's wishing
they hadn't & some they ~~had~~ had.
There's still want only to revert
back into feeling human.
you ask? I am in jail at 19
I will be so for years.
Nothing comforts me, but
~~tomorrow is ~~change~~ hope~~
